Brainstorm & Idea Prioritization Template

The team discussed different project ideas and selected the **Book Store** project because it solves the common problem of buying books easily through an online platform. The idea was chosen as it is useful, simple to use, and provides a better experience for users, sellers, and administrators.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Team Gathering

Our team discussed different project ideas related to e-commerce and online services. After sharing ideas, we selected the **Book Store** project because it is practical and helpful for students and book lovers.

Problem Statement

Many people find it difficult to search for books, compare prices, and buy them from physical stores. Traditional bookstores also face challenges in managing book inventory and customer orders efficiently.

Goal

To develop a **Book Store Web Application** where users can search, view, and buy books online. Sellers can manage books, and administrators can manage the entire system.

Step-2: Brainstorm, Idea Listing and Grouping

Ideas Discussed

- Online Book Store 
- Digital Library
- Library Management System
- Book Rental System
- Second-Hand Book Exchange

Selected Idea

Book Store Web Application

Main Features

- User Registration and Login
 - Search Books
 - View Book Details
 - Add Books to Cart
 - Place Orders
 - Seller Dashboard
 - Admin Dashboard
 - Book Management
-

Step-3: Idea Prioritization

Why We Selected This Project

- Easy for users to buy books online.
- Saves time compared to visiting physical stores.
- Helps sellers manage books easily.
- Provides secure login for users.
- Simple, useful, and practical real-world application.

Expected Outcome

- Easy online book shopping.
- Better book management.
- Secure and responsive website.
- Good user experience.
- Easy management for sellers and administrators.

Brainstorm & Idea Prioritization Template

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

STEP-1: TEAM GATHERING, COLLABORATION AND SELECT THE PROBLEM STATEMENT

BOOK STORE Brainstorm & Idea Prioritization

We brainstormed various ideas to solve real-world problems and selected the Book Store project to build a simple, useful and user-friendly web application.

- 🕒 60 minutes to prepare
- 👥 1 hour to collaborate
- 👥 5 members participated

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

Team gathering

Discuss and share ideas about the problems faced by users while buying or managing books.

Set the goal

Build an online platform where users can search, buy books and sellers can manage inventory easily.

Learn how to use the facilitation tools

Use these tools to organize ideas, collaborate and prepare the best solution.

Project Selected

Book Store – An online platform to buy, sell and manage books.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a 'How Might We' statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we make it easy for people to search, buy and manage books online efficiently and securely?

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.
