 - Track orders.
-

3. Triggers (TR)

- Need books for studies.
 - Looking for a new novel.
 - Discounts and offers.
 - Recommendation from friends.
 - Social media advertisements.
-

4. Emotions: Before / After (EM)

Before

- Confused
- Frustrated
- Time-consuming

After

- Happy
 - Satisfied
 - Comfortable
 - Saves time
-

5. Available Solutions (AS)

- Visit physical bookstores.
 - Search on different websites.
 - Buy from online shopping platforms.
 - Borrow from libraries.
-

6. Customer Constraints (CC)

- Limited availability of books.
 - High prices.
 - Slow delivery.
 - Difficult to compare books.
 - Security concerns during online shopping.
-

7. Behaviour (BE)

- Search books online.
 - Read reviews.
 - Compare prices.
 - Add books to cart.
 - Place orders.
-

8. Channels of Behaviour (CH)

Online

- Book Store Website
- Google Search
- Social Media
- Email Notifications

Offline

- Physical Book Stores
 - Book Exhibitions
 - Friends and Family
-

9. Problem Root Cause (RC)

- No single platform for all books.
 - Manual inventory management.
 - Limited stock in local stores.
 - Lack of secure online shopping.
 - Difficulty finding the required books.
-

10. Your Solution (SL)

Develop a **Book Store Web Application** that provides:

- User Registration & Login
 - Search Books
 - Book Categories
 - Book Details
 - Shopping Cart
 - Secure Authentication
 - Seller Dashboard
 - Admin Dashboard
 - Order Management
 - Responsive User Interface
-

Expected Benefits

- Easy book search.
- Secure online shopping.
- Better inventory management.
- Faster ordering process.
- Improved customer experience.

- Saves time and effort.
