Project Overview

Project Name: Book Store – MERN Stack Web Application

Project Description:

The Book Store is a full-stack web application developed using the MERN stack (MongoDB, Express.js, React.js, and Node.js). It allows users to browse, search, and purchase books online. The system also provides separate dashboards for Admin and Sellers to manage books, users, and orders.

Project Version: Version 1.0

Testing Period: 15 July 2026 to 18 July 2026

Testing Scope

Features Tested

- User Registration
- User Login
- Book Search
- Book Details
- Shopping Cart
- Place Order
- Seller Dashboard
- Admin Dashboard
- Book Management
- User Management
- Order Management
- Logout

User Requirements Tested

- Users can register and log in successfully.
- Users can search and purchase books.
- Sellers can add, edit, and delete books.

- Admin can manage users, sellers, and books.
 - Orders are placed successfully.
 - Only authorized users can access protected pages.
-

Testing Environment

Application Type: Web Application

Frontend: React.js

Backend: Node.js + Express.js

Database: MongoDB

Browser: Google Chrome

Operating System: Windows 11

URL/Location:

http://localhost:5173

Credentials

Admin

- Username: admin@example.com
- Password: Admin@123

User

- Username: user@example.com
- Password: User@123

Seller

- Username: seller@example.com
 - Password: Seller@123
-

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Status
TC-001	User Registration	Open Register → Enter Details → Click Register	User account created successfully	User registered successfully	 Pass
TC-002	User Login	Enter Email & Password → Click Login	User logged in successfully	Login successful	 Pass
TC-003	Search Books	Enter book name in search bar	Matching books displayed	Books displayed correctly	 Pass
TC-004	View Book Details	Click any book	Book details page opens	Details displayed	 Pass
TC-005	Add Book to Cart	Click Add to Cart	Book added to cart	Added successfully	 Pass
TC-006	Place Order	Checkout → Confirm Order	Order placed successfully	Order created	 Pass
TC-007	Seller Adds Book	Seller Login → Add Book	New book added	Book added	 Pass
TC-008	Admin Deletes Book	Admin Login → Delete Book	Book removed	Book deleted	 Pass
TC-009	Unauthorized Access	Access Admin Page without login	Access denied	Redirected to Login	 Pass
TC-010	Logout	Click Logout	Session ends	Logout successful	 Pass

Bug Tracking

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Search takes a few seconds for large data	Search multiple books quickly	Low	Closed	Performance optimized
BG-002	Empty form submitted	Click Register without entering details	Medium	Closed	Validation added
BG-003	Invalid login credentials	Enter incorrect email/password	Low	Closed	Proper error message displayed
BG-004	Duplicate book entry	Add same book twice	Medium	Closed	Duplicate check implemented
BG-005	Unauthorized dashboard access	Open dashboard without login	High	Closed	JWT authentication fixed

Test Summary

Total Test Cases	Passed	Failed	Success Rate
10	10	0	100%

Sign-off

Tester Name: Bheemi Reddy Sunaina

Project: Book Store – MERN Stack Web Application

Date of Test Completion: 18 July 2026

Signature: _____

Notes

- All major features were tested successfully.
- Both positive and negative test cases were executed.
- All identified bugs were fixed and retested.
- JWT authentication and role-based authorization were verified.
- The application is stable and ready for deployment.
- Future testing can include payment gateway integration, email notifications, and performance testing under high user load.
